

# DARKNET MARKETS LIST 2025

List of all the best dark web markets

The dark web is part of the deep web but is built on darknets: overlay networks that sit on the internet but can't be accessed without special tools or software like Tor. Tor is an anonymizing software tool that uses the Onion Router — you can use the Tor network via [Tor Browser](#).

## NEXUS

NEXT GENERATION MARKET

### Nexus Market

The Nexus market, a notable figure in the darknet's vast expanse, is famed for its unique approach to commerce and its rarity in its field. Focused primarily on illegal drug sales, it sets itself apart by ensuring the authenticity of its products.
